The **ScanALERT** Digital Call System is a modular hardwired Nurse Call System that can be easily expanded at any time simply by connecting in the required module. There are no restrictions on the number or type of devices that can be used. The system is wired using a six core shielded data cable. The standard wiring pattern is a star pattern radiating from a cable junction. All devices can be connected in any format, star pattern or loop in loop out.

Product Range:

- Various priority points (call, Staff Assist, Emergency)
- Over door Lights
- Input modules
- Output Modules
- Digital Display Panels
- Messaging system integration
